"Insult To Injury"

You're adding insult to injury;
How much does my heart have to hurt?
Ain't it enough that you're through with me;
Do you have to drag my pride through the dirt?
Must you parade your new love right in front of me?

Oh, it make you feel better,
It make you feel better,
Adding insult to injury.

You're going out of your way to be cruel to me
Each time I show my face around.
Ain't it enough you made a fool of me?
Do you have to laugh while I'm still down?
Must you parade your new love right in front of me?

Oh, it make you feel better,
Make you feel better,
Adding insult to injury.

Must you parade your new love right in front of me?
Oh, it make you feel better,
I hope it makes you feel better,
Adding insult to my injury...
Oh, adding insult to my injury.
Oh, insult to injury... whoa oh...
