Hit the road  
You don't need a home  
Break my heart  
I'll be fine baby  
Sticks and stones may break my bones  
But I will die if it stays this way

Our ship has sailed but we won't drown  
Remember what you said to me  
The day we met in a lonesome town  
I heard you say "I'll set you free"

I just want to set you free

I took your hand  
Then you took your van  
You were the man  
I was desert sand  
Grand canyon in the setting sun  
The heart beats, the shirt's undone

Goodbye my love  
There's no need to frown  
Remember what you said to me  
The day we met in a lonesome town  
I heard you say "you set me free"

I just want to set you free

Don't make a fuss  
Take the greyhound bus  
Go do your stuff  
Put your trust in me  
Across the land  
Just remember us  
Let go my hand  
As I set you free

I just want to set you free
