

In Apostasia "I Am"

Visit "[I Am](#)" on MotoLyrics.com

I... I remember when death
Arrived... In ships from the north
Emerging... From ice cold waters
Thinking... Itself as god

Beware... All of you sinners
Beware... Men of no faith
Beware... The lake of fire
Beware... You'll all burn in hell

In their mouths... The news of a god
In their hands... The knives and crosses
The offer... Redemption from the sins
In their voice... Words of betrayal

Beware... All of you sinners
Beware... Men of no faith
Beware... The lake of fire
Beware... You'll all burn in hell

They burned the land
They killed the children
They raped the women
They skinned the men

I... I am the antichrist
I... Renounce thy faith
I... I fuck your virgin mother
I... I spit your other face
