So you feel your life won't be easy and you've got it  
bad  
All the time tired and queasy

Oh  
Look  
She's feeling lazy  
And all the time they're watching me  
By now I'm feeling lazy too

You're such a lucky girl  
You're such a lucky boy

And so you feel your life is a wasting  
You're counting sheep and lost at sea  
All the while there is something on t.v.

And if you think they're out to get you  
All the time they're after me  
Know that there's something for you and me

You're such a lucky girl  
You're such a lucky boy

You're such a lucky girl  
You're such a lucky boy
