You know who
She's looking for you
And you know who
She's calling your name

Have you seen her around
And she's carrying a gun
And she's dressed to kill
Oh
Where'd she go

We know who
She's got her sights set on you
What's stopping you from jumping in front of a train

Have you seen her around
And she's carrying a gun
And she's dressed to kill
Oh
Where'd she go

You know who
Oh
Where'd she go
Falling for you into the river

Have you seen her around
And she's carrying a gun
And she's dressed to kill
Oh
There she goes

Calling at you
Falling for you

Calling at you
Falling for you
