Just a hollow shell making my way through life  
Drawn in by the radiance of the light  
The blinding beauty I see in your eyes  
The first embrace  
The warmth of your skin  
Desire deceived  
Like a moth to flame

The beginning of a great adventure,  
I'll no longer walk this path alone  
The fear of flying to close to the flame  
Never crossed my mind  
If my wings do burn and I fall towards the ground,  
Our memories would be worth the fall

You left me without words  
Tongue tied in a knot of anxiety  
I knew I needed you  
The blinding beauty I see in your eyes  
The first embrace  
The warmth of your skin  
Desire deceived  
Like a moth to flame

Spiraling towards a wavering brilliant moon,  
Betrayed by the very instincts that guide my way  
Although the unfamiliar glow  
Should have warned me of blinded senses,  
The smoldering heat could not dissuade my path

We are the ocean waves upon the crest  
We could crash or we could flow  
But only we will ever know

We are the ocean waves upon the crest  
In a storm you are the only vessel,  
Left untouched by the squall  
A shining star that guides me home  
Drawing me in  
Like a moth to flame  
Guide me home

Spread out over the distance  
Is the road that we shall walk  
Step by step  
Hand in hand
