

Negative "Black Light"

Visit "[Black Light](#)" on MotoLyrics.com

Respect everyone around us
Be social, clear your mind
Protect yourself from danger
Just don't let all lit yourself

Only you can decide for your life
You can make it, if you try
No one can control your mind
All you gonna see is black light
Black light on your right

Just call when you need me
There and then I'm your child
Respect everyone around you
I know I wanna taste you so
Only you can decide for your life
You can make it, if you try
No one can control your mind
Only thing that I see is black light

Only you can decide for your life
You can make it, if you try
No one can control your mind
Only thing that I see is black light
Black light on your right
