This revolution in my mind
This generation will be mine
With the satisfaction
Only strongest will survive

Close enough to pain
Pleasure screams your name
I've seen this one before
Glory of the shame

You're the shelter
I'm the storm
That will never be calm
Glory of the shame
It goes by the name...

Beware I'm here to take control
Only I can save your rotten soul
For the devastation that drove you
Out of your mind

Close enough to pain
Pleasure screams your name
You've seen this one before
Glory of the shame

You're the shelter
I'm the storm
That will never be calm
Glory of the shame
It always goes by the name...
Glory of the shame

Blissful mother fuckers fasten your seatbelt
And forget all your responsibilities
In the name of liberation that we represent

Close enough to pain
Pleasure screams your name
You've seen this one before
Glory of the shame

You're the shelter
I'm the storm
That will never be calm
Glory of the shame
Close enough to pain
The pleasure screams our name
Glory of the shame
And it goes by the name...

Glory of the shame
(Close enough to pain)
Glory of the shame
(Close enough to pain)
Glory of the shame
(Close enough to pain)
Close enough to pain
(Glory of the shame)
(Close enough to pain)
Close enough to pain
(Glory of the shame)
