Like season change their face
rain like the tears
winds got your voice
whispering my name

Landing shadows come around
telling me the same old story
with certain sound

Im stuck in a place
prisoner of this room
painful memories of me and you
I take colors of longing
and paint you on my wall

Is it too much to ask for some golden peace
thats what I expect from you at least
its simple and understood
theres no way out

(Chorus):
I wish that I would be dead
dead like you and I
falling like a butterfly
after one lived day
I hope you will find your peace
inmortal, eternal and real
I know I cannot be dead yet
just cant live it again

Too much, never enough
we're stuck in time
until death leads us away

In the moment there im scared the most
YouÂ´re sleeping away
soon youÂ´ll be lost
Every breath that you take
youÂ´ll be closer to where you belong

I never though this could be so hard and rough

After all we've been through
Can't get enough
Of this sweetest dream
You once gave me as a gift

(Chorus)

I hope you're waiting for me somewhere out there
In a place where we can hold each other again
You went first I'll go right after you
I'm depressed I don't care
I miss you, I hope you hear me

(Chorus)
