I've tried to kill the pain
but it's keep me in this circle
It's hard to get away
I know exactly what it's gonna take
from me

I only close my eyes
and I feel you again
you're with me

Love is the word
you gave it a name

Our love is right now
so don't close your heart
I've been waiting for all my life
to get the Moment of our Love
with you

I've tried to feel the pain
but it's keep me in this circle
I don't wanna get away
'cause you're here with me
I feel you

Love is a word
you gave it a name

Our love is right now
so don't close your heart
I've been waiting for all my life
to get the Moment of our Love
with you
with you

Our love is right now
Our love is right now
right now

Our love is right now
so don't close your heart

I've been waiting for all my life
to get the Moment of our Love
with you

Just let me love you
and I learn to love you right
I lived only for this Moment
for this Moment of our Love

with you
without you
