Maybe you don't know it yet
Got a secret that I keep
I don't wanna spoil it but
It's about you and me

Don't know if I can hold this in
Never felt like this before
Maybe if you're interested,
I'll tell you more.

You're like the song that's stuck
Inside my head won't go away
And I think about you every second
And I just gotta say.

Holla Holla,
How can I get your attention boy?
Holla Holla,
Am I getting through to you?
Holla Holla,
Maybe we got some potential boy.
Who knows, what we, could be.
So holla back to me.

All you gotta do is talk to me
Doesn't matter what you got to say
I just really wanna spend
Some time; communicate

Tell me that I'm not outta my mind
Tell me that you feel the same way I do
I gotta know baby

You're like the song that's stuck
Inside my head won't go away
And I think about you every second
And I just gotta say.

Holla Holla,
How can I get your attention boy?
Holla Holla,
Am I getting through to you?

Holla Holla,
Maybe we got some potential boy.
Who knows, what we, could be.

Take me into your arms
Let me in to your world
Cause I'm dying to see what's inside

Wanna dream what you dream
I wanna see what you see
And find out what makes you smile

Holla Holla,
How can I get your attention boy?
Holla Holla,
Am I getting through to you?
Holla Holla,
Maybe we got some potential boy.
Who knows, what we, could be.
And I just gotta say

Holla Holla,
How can I get your attention boy?(I wanna get your
attention boy)
Holla Holla,
Am I getting through to you?
Holla Holla,
Maybe we got some potential boy.
Who knows, what we, could be.
So holla back to me.
