Don't hesitate  
She's just a girl  
Trying to give you a hand  
Job all day long  
She's just a girl  
Why don't you call her on the phone?  
Cause you're a man  
You're just a man indeed  
Don't try to fly your needs  
Ain't got the time  
The clock is ticking  
Gotta hurry to make a scene

Show confidence  
She's just a girl  
Trying to give you a hand  
Job all day long  
She's just a girl  
Why don't you call her on the phone?  
Cause you're a man  
And she's a girl in need  
You gotta pack and leave  
Ain't got the time  
The clock is ticking  
Gotta hurry to blow a kiss

Studio, in a studio  
She's a lie in a miniskirt  
Please cross the fader  
It's about to come out  
Because she's on me
