"Alas"

Alas did not
This happen to me
Your hands that night

Alas did not
This happen to me
To have you by my side

You know, you know, you know
I say "Anymore"
Incompleted try
I know, I know, I know
You did all right
Not happened to me

I wish we were...
I loved you so
The thing you'll never know
Should I regret for...
I loved you so
The thing you'll never know

Oh how I wish
You happened to me
In the middle of nowhere
Oh How I wish
You happened to me
And meant me fair

You know, you know, you know
You know this game
That you played with me
I know, I know, I know
I say "Anymore
you happen to me"

I wish we were...
I loved you so
The thing you'll never know
Should I regret for...
I loved you so
The thing you'll never know

I wish were...
I loved you so

I wish were...
I loved you so

I wish we were...
I loved you so
The thing you'll never know
Should I regret for...
I loved you so
The thing you'll never know

This happen, happen to me
