You sent your son to make away
Upon the cross was all my shame,
Your fire of love will purify
It set me free, it set me free

You sent your son to make away
Upon the cross was all my shame,
Your fire of love will purify
It set me free, it set me free

So let your light shine burning brighter
So light the sky I want to see your fire
Burning brighter still, burning brighter still

Shine like the stars and lead me home to you
I'll follow your fire, I'll follow your fire

Open my eyes that I may see the wonder of your
majesty
And now I walk knowing the truth
It set me free, it set me free

So let your light shine burning brighter
So light the sky I want to see your fire
Burning brighter still, burning brighter still

Shine like the stars and lead me home to you
I'll follow your fire I'll follow your fire

I will follow u, I will follow you
To the end of the earth never turning back
I will follow u, I will follow you
To the end of the earth

I will follow u, I will follow you
To the end of the earth never turning back
I will follow u, I will follow you
To the end of the earth

So let your light shine burning brighter
So light the sky I want to see your fire
Burning brighter still, burning brighter still

Shine like the stars and lead me home to you
I'll follow your fire.I'll follow your fire

I will follow u, I will follow you
To the end of the earth never turning back
I will follow u, I will follow you
To the end of the earth
