I love how you dance girl
She can break it down (I love how you dance girl)
She can break it down
She can break it down
She can break it down
She's my personal choreographer

Can you break it down? (I love how you dance girl)
Can you break it down?
Can you break it down?
Can you break it down?
She's my personal choreographer

Look girl, what you doing, is it choreographed?
Girl, your choreography is making men look bad
Maybe you can teach me something
Can I get your autograph?
Baby girl, can I audition?
Wanna be your other half

Flying into the limo
Dropping on leather seats
Girl, I can't believe you dropped it in front of me
Hanging out the window
Hollering and screaming, yeah
Don't act like you're scared
Girl, are you ready, yeahh

Girl, you're moving like a star
You're moving like a star
Beautiful you are, my choreographer
Baby, you're moving like a star
'Cause you know what you are
I love the way you moving into the beat
Choreography (Uh huh, uh huh)
Can you work it for me? (Uh huh, uh huh)
Let your body talk to me (Uh huh, uh huh)
Can you do that for me? (Uh huh, uh huh, uh huh)

Catching me, you're moving like it's choreographed
Girl, your choreography is nothing like I've ever had

Maybe you can show me something like the kind I never
had
Glad, I'll maybe audition
I know you'll be calling back

B-B-B-B-B-Break it down some more
Baby, 'cause I need a show[x2]
