Haven't been down this road before  
I'm not sure where it's leading  
Cause all these people want to know my story  
How I'm doin', how I'm feelin'  
I'm just looking for my peace of mind  
Something I can call my own  
You didn't know I was so happy go lucky  
I tried to never wear a frown

Chorus:

Do a little dance, make a little love  
Get down tonite  
Shake your body 'round, take it downtown  
Make you fell alright  
Cause I'm alright, I'm ok  
I'll live to love another day  
Do a little dance, make a little love , tonite

Tonite!!

No regrets, don't have to say I'm sorry  
Cause I have stumbled can't you tell  
If I share my heart and all it's glory  
The I guess you know me well

Chorus x2

Tonite!!

Make you fell alright(x2)

Ohhh...Tonite!!

Will make you fell alright

Ohh...Tonite!!

(Do a little dance, make a little love, get down tonite) x7
