[Verse I]

Human race watches you  
There's nothing that you can do  
Robotic brains, small mainframes  
Processing your every move

[Verse II]

Secrets lost by a shadowed force  
Downloading their captured source  
Knowledge spreads throughout the world  
There's nothing that we can do

[Chorus]

Making my journey back homeward  
I must live where I belong  
Far away from civilization  
It feels so right it can't be wrong

[Verse III]

Virtual images  
Satellites tracking you all  
No escape from this database  
Freedom is not in this place

[Repeat Chorus]

[Solo - Lozon]
