Tragedy onto display a nausea eating away sanctity of  
my dismay  
Chained and caged like a chunk of meat on a leash  
irradiate the mortal flesh

I'm schizophrenic rabid cells of pain eating you inside  
I'm havoc vulture bred in supreme chaos

Blinding light so close to, endless wrath adheres to  
these remnants of my decay  
Helpless mind just push you worsening it's features,  
violent frantic display

I'm havoc vulture fed on human failure

Force fed despair within mortal flesh,  
I'm Pandemonium  
Utter decay enlightening eyes, a fallen catastrophic  
star

Blinding light won't end soon, endless wrath won't  
break you, these remnants of my decay  
Helpless mind has pushed you, worsened it's features,  
violent goddamn display

I'm schizophrenic rabid cells of pain eating you inside  
I'm havoc vulture bred in supreme chaos

Force fed despair within mortal flesh,  
I'm Pandemonium  
Utter decay enlightening eyes, a fallen catastrophic  
star

Fell down from hell among human flesh,  
I'm Pandemonium  
Supreme decay ablazing my eyes, the cataclysmic type  
supreme kind of pain today
