[Verse 1]

I saw a clown walking in the alley
He lived with me there in the valley
He wore nothing but a sad face
That's why I followed his trace
In every corner he stopped for a while
Nobody saw a single smile
All of the sudden I heard a sound
The gun shot him to the ground

[Hook]

Now there is no clown walking in the alley
Now I'm on my own in the valley
Now there is no clown walking in the alley
Now I'm on my own in the valley

[Verse 2]

From the heaven I saw a ghost
Found my friend with his body frosted
With bullets he found heaven's bed
When his body was in red
I saw a smile from the ghost of death
He never smiled with his own breath
Please can I borrow your smile?
So I too can rest for a while

[Hook]

Now there is no clown walking in the alley
Now I'm on my own in the valley
Now there is no clown walking in the alley
Now I'm on my own in the valley
