For The Hustlers

[Chorus 1x]

This is for the hustlers
This is for the thugs
This is for the brothers trapped in drugs
This is for the gangsters
This is for the friends
This is for the homies that's never breath again

[Verse: FTM]

With the microphone stuck in my hand
The world can't deny me
Cuz I'm the last man to stand
The fastest growing mc form AB-G
The realest rapper spitting on the M.I.C
Now they all wane know
Who I fucking be
Ftm outta H-town
Yeahh, that's me
Advancing the game to a whole new level
Organization for an attack
So watch your back
My rhymes comes like
The Armaggon form the sky
So point you finger and say
That's the bad guy
Say hallo to my lil friend A K 47
I capture your soul
So you won't go to heaven
The game can't sold its can only be told
I'm the holy spirit
With a heart of gold
My music on the road to reach the top
And I'll be the new emperor of the new generations hip
hop

[Chorus 2x]

This is for the hustlers
This is for the thugs
This is for the brothers trapped in drugs

This is for the gangsters
This is for the friends
This is for the homies that's never breath again

[Verse: Mister M]

Ey yo, It's mister M
On the mic once again
In the studio with my man
You know Ftm
Going hardcore throwing fire-lines
Turn your ass to an inferno
Fucking your mind
In this rap game
I be the predator
Laying low 'til I attack you like an alligator
Now I can't be stop
Unstoppable like a train
I'm real to the game
Always the same
Saw Arnold Schwarzenegger on a movie kicking ass
So now I'm busting people and blast
Remember me from World trade center
When Mr. M came, a new legend entered
I will knock you all down
I'm a real outlaw
Bite you like a pit-bull and lock my jaw
This is for ges, this is for emceees
This is for all my muthafucking young Bes

[Chorus 2x]

This is for the hustlers
This is for the thugs
This is for the brothers trapped in drugs
This is for the gangsters
This is for the friends
This is for the homies that's never breath again
