In the dim light of the day memories will fade because
they took my sight away and I can't recall my face.
What a shame, learn to live and play the game. Is it
wrong to step outside or does it just burn my eyes?

[Chorus:]

Even though I'm not ok with this
Even though I'm not alright with this
Listen to your people, all the angry people.
No I don't care what you say
i need this to kill the pain
Listen to your people, all the angry people.

Embers falling from the sky and lighting up the night.
Or is this the darkest day and what have i to say? Turn
around, strike this building to the ground. I could
laugh, I could cry and they'll never know just why...

[Chorus]

You could have told me anything to justify what I'm
feeling but the world appears in shades of blue,
another life i never knew...

[Chorus]
