Yes, it's Lo-So  
J-Man, Israel, aka 'It's Real'

Now you know I got to start with Florence  
I met her in the heart of New Orleans  
That was when the Aston Martin was orange  
A body that could speed up a heart performance  
But she change character like Martin Lawrence  
A real Dr. Jekyll, Miss Hyde chick  
Flip out on you, call her Miss Sidekick  
So I told Israel don't make it his girl  
Hope she just a friend, better play up his style

Thinking 'bout the time that we first met  
I was so glad I found you  
Had me in a spell the first moment  
That I laid eyes upon you  
What I would do to feel like that  
And know the way to make you smile again  
I would in a flash, cause

You ain't the one I knew  
Have we been introduced  
Cause clearly I've thought and I see  
The Gemini in you  
Its pushing me away from you  
But I'm so in love with you  
Oh I just want my baby back  
Cause I didn't fall for the Gemini in you

(No no noo no no yea)  
How did we ever get it to this point  
It wasn't written in our plans  
Think about it like flipping a coin  
Your other side so different  
You're just reacting, what's the cause  
Or are you so good to walk out the door  
When I'm trying to make her choose

Tell me  
Do really I

Deserve to you to just treat me like  
Some other guy  
Thought I was the one you want to be with  
Don't leave me to do this alone  
We came way too far to quit so don't let this go  
And I'm hurting baby, cause

You ain't the one I knew  
Have we been introduced  
Cause clearly I've thought and I see  
The Gemini in you  
Its pushing me away from you  
But I'm so in love with you  
Now I just want my baby back  
Cause I didn't fall for the Gemini in you

Oh my girl  
How I desire for us to be so close  
That nothing could break us apart girl  
But I got to admit I'm scared when  
You change on me

Now I see what your ex was talking about  
One minute your Muslim then you porkin' it out  
First you don't like rap then you walking it out  
You don't know where I live then you stalking it out  
Wow  
I'll be telling women why  
Be a Virgo and act so Gemini  
But you know me, a homie's hip to this  
I'll snap you out of it like a hypnotist

Cause you ain't the one I knew  
Have we been introduced  
Cause clearly I've thought and I see  
The Gemini in you  
Its pushing me away from you  
But I'm so in love with you  
Now I just want my baby back  
Cause I didn't fall for the Gemini in you (Gemini in you)

(You, Gemini in you)
