[Intro]

Yes hold it down for my homies  
This is real girl you know me

[Chorus]

So you can never change my ways  
And you can never stop me now  
So baby I'm a hold it down, hold it down, hold it down  
And if I'm gonna make a change  
Then I'm a have to make now  
So baby I'm a hold it down, hold it down, hold it down

[Verse 1]

Uh yeah I make champion music  
So turn this record off if you plan on losing  
They tell me quit but I can't I refuse  
Ima beast when it comes to this beat  
So I choose to prove anybody that's trying to come and  
test me  
You can ask your girlfriend she tell you who the best be  
Yeah if being dope is a crime  
All you whack motherfuckers all of ya'll come and  
arrest me  
Yeah cause I represent sydney  
Even though my childhood resides out of werrabee  
But fuck it  
I hold it down for australians  
Even if the world think that we a bunch of aliens  
I put it down for the nation  
Now put your hands up all my asians  
I'm a represent ya'll to the days when I'm dying  
Uh I hope a few things have changes then  
Yeah

[Chorus]

So you can never change my ways  
And you can never stop me now  
So baby I'm a hold it down, hold it down, hold it down  
And if I'm gonna make a change  
Then I'm a have to make now  
So baby I'm a hold it down, hold it down, hold it down

[Verse 2]

Yeah I know I aint a fucking heart throb  
But I make a record that'll make your heart stop  
Yeah you trying to stop me like a car block  
But ima keep it hard for all my known soft cocks  
And since I threw away the pencil  
I'm writing from my dome that's elevated my mental  
Yeah limited edition original  
Then I can see my fear trying to trace me like a stencil  
Yeah and all you labels out here  
That scared of R'n'B yo you never need to fear  
We here  
And you can leave it to the pros  
You should never interfere with something you never  
known about  
So let me show you how it's done homie  
And if you wont lead then I'm a be the one homie  
Yeah to you it's just a bit of fun  
But for me yeah it's for real have to make it for my son  
So please step aside amd let me get to work  
You know I aint afraid to put my fingers in the dirt  
This industry has left a lot of bodies in a hearse  
But I resurrect them all with this verse  
Yeah they say that israel is a problem  
You can find a cure for aids but you can never solve  
him  
Yeah I hold my money like I'm starving  
Pocket full of green you can call me green goblin

[Chorus]

So you can never change my ways  
And you can never stop me now  
So baby I'm a hold it down, hold it down, hold it down  
And if I'm gonna make a change  
Then I'm a have to make now  
So baby I'm a hold it down, hold it down, hold it down

[Verse 3]

Oh yeah I remember mr mkinnon  
You told me once that as long as I was living  
That I could never do anything with my music  
But fuck you look at the talent that I'll be given  
I'm a motherfucking monster khaled is a beast  
Together we like warlords from the middle east  
And these streets they been calling out for our beats  
And it's been so cold I think it's time to bring the heat  
now  
Yeah and J-Remy told me to smile more  
But when I do I don't know what the fuck to smile for  
I got the whole weight of australia on my shoulders

And every single country in asia I do this for us  
Yeah I hold it down like a strong force  
And all the hard work you now I put it in pause  
I'm married to this motherfucker R'n'B is my wife and  
Hip Hop is my in-laws

[Chorus]

So you can never change my ways  
And you can never stop me now  
So baby I'm a hold it down, hold it down, hold it down  
And if I'm gonna make a change  
Then I'm a have to make now  
So baby I'm a hold it down, hold it down, hold it down

[Outro]

Hold it down  
I'm a hold it down  
I'm a hold it down
