Push me, pull me, how do you want me?
Touch me, tease me, love it when you taunt me
Don't try to hide; you know you want to flaunt me
Ollie ollie oxen free, you caught me

Push me, pull me, how do you want me?
Touch me, tease me, love it when you taunt me
Don't try to hide; you know you want to flaunt me
Ollie ollie oxen free, you caught me

Move, just a little bit closer
Move, can you feel my body?
Move, 'cause my temperature's rising
Move, come on baby make your move

Move, just a little bit closer
Move, can you feel my body?
Move, 'cause my temperature's rising
Move, come on baby make your move

No question, you want it, come and get it while it's
waiting for ya
Don't tell nobody 'bout this freaky thing I'm gonna show
ya
No question, you want it, come and get it while it's
waiting for ya
Don't tell nobody 'bout this freaky thing I'm gonna show
ya

Flip me, toss me, know you wanna boss me
If I give into you, what's it gonna cost me?
If you wanna climb, baby jump on the fence
Make a dollar out of my fifteen scents
One for the money, two for the sex
Three and a half hours later, what's next?

(in the kitchen, up against the door)
(in the bathtub or on the floor)

Move, just a little bit closer
Move, can you feel my body?

Move, 'cause my temperature's rising
Move, come on baby make your move

Move, just a little bit closer
Move, can you feel my body?
Move, 'cause my temperature's rising
Move, come on baby make your move

No question, you want it, come and get it while it's
waiting for ya
Don't tell nobody 'bout this freaky thing I'm gonna show
ya
No question, you want it, come and get it while it's
waiting for ya
Don't tell nobody 'bout this freaky thing I'm gonna show
ya

Whatever you want me to be, here i am, here i am
So many ways to be free, to be free
And i don't give a damn

Move, just a little bit closer
Move, can you feel my body?
Move, 'cause my temperature's rising
Move, come on baby make your move

No question, you want it, come and get it while it's
waiting for ya
Don't tell nobody 'bout this freaky thing I'm gonna show
ya
No question, you want it, come and get it while it's
waiting for ya
Don't tell nobody 'bout this freaky thing I'm gonna show
ya
