VERSE 1

I got it, I get it, I blow it, I spend it

Got women, got plenty, how many, to many

They want prada, they want fendi

They mess up then they don't get it

I been kick pimp ish

Running this here just like a business

I'm fresh, I'm coolin I feena make a movie

I gotta that fruity, that's stupid

That make your face droopy

Tell them I hop a the spaceship they like dude

Your ride is really outta here, look I'm from the moon

I'm drunk, I'm high, I'm leaning like a kick stand

I can't even dance, I can't barely stnad

Drinking out the bottle, pourin on a model

Ballin in the club like we gonna die tomorrow

CHORUS

I think I'm going out tonight, you know Imma party

Pull in the UFO they think Imma marshan

You know Imma star, aint no getting carded

Drinking out the bottle might get alcohol poison

Uh Uh Alcohol poison, Uh Uh alcohol poison

Uh Uh Alcohol poison, Uh Uh alcohol poison

VERSE 2

Rosey yea I pour up, bubble kush I roll up

So high so drunk I'm feeling dizzy, like I wanna throw
up

Patron, Grey Goose, and Nuevo, kicking with my new
hoe
We pull up flexin Shining Stuntin Iced out in that two
door.
My eyes red and they low too, I been drinkin that grey
goose
Remy Martin, beg your pardon partner I don't know you
Model after model still poppin bottles
Drinking lean Imma a fiend smoking like a rasta
My girl say I drink too much, Momma say I smoke too
much
Do let that nig hit the weed he take too long, he choke
too much
So drunk I could not see the road, I did not know which
way to go
Woke up in the morning drunk, throw up all over my
clothes

CHORUS

BRIDGE

Rosey, Hosa Quvo and Patron
All the shots to the dome, tell my partner that it's on
We get alcohol poison, that's just how we party
Girls with their camera phone, they wanna record me
I froze then pose now put me in a picture frame
I'm sleepy, I'm dizzy I been on some nova cane
Hop on in that flying saucer she thinks Imma marshan
Drinking out the bottle I make her a Target
I'm drunk, I'm high, Might get a DUI
About this alcohol poison I think I'm about to die
I'm drunk, I'm high, Might get a DUI
About this alcohol poison I think I'm about to die

CHORUS
