Oh I can't find a light in the corner of this empty room  
All I see, all along the western front  
And I've tried everything to change your mind  
Still all I get from you is no, no.

I gotta be moving on, moving on,  
Since I met you.  
I know it's wrong, know it's wrong,  
But still I'll try.  
There's something in the way I feel  
When you say my name  
Girl I know it's real  
Moving on is what I gotta do; to get myself over you.  
To get myself over you, yeah.

We wait for something's.  
We wait and never know when the hardest thing in life  
Is finding the right person  
But letting go, it gets harder  
When the one you love doesn't know your name  
You're put to shame

Singing no, no, no.  
I gotta be moving on, moving on  
Since I met you.  
I know it's wrong, know it's wrong,  
But still I'll try.  
There's something in the way I feel  
When you say my name  
Girl I know it's real  
Moving on is what I gotta do; to get myself over you.

You make it easy to fall in and out of love.  
I'm going crazy, looking for answers from above.  
Wishing you were picking me up girl,  
Picking me up on the way back down.  
Picking me up girl, picking me up on the way back  
down.

Moving on, moving on  
I know it's wrong, know it's wrong  
There's something in the way I fee

When you say my name  
Girl I know it's real  
Moving on is what I gotta do, to get myself over you.  
Moving on, moving on, moving on.  
I gotta get myself over you
