I want to talk to you about my girl
I want to talk to you about my girl
I want to talk to you about my girl
I want to talk to you about my girl
'Cause i love my girl

She's got a pretty pretty face
With a lovely pair of blue eyes
And she's got fleshy fleshy legs
And when she's licking them
She makes me feel so warm, so warm
She makes me feel so warm inside

I want to talk to you about my girl
I want to talk to you about my girl
I want to talk to you about my girl
I want to talk to you about my girl
'Cause i love my girl

When i see her all i want
Is to spend one night with her
So i try to imagine
How i could get closer to her
I just have to think like all men do
I would make her dream,
Make her loose her mind
Until she lets me squeeze her and kiss her
Until she lets me kiss her and fuck her

I want to talk to you about my girl
I want to talk to you about my girl
I want to talk to you about my girl

I want to talk to you about my girl
'Cause i love my girl

I would put her in my bed
While she's inconcious
I would tear her clothes up
And then bit her tits
Excited i would open her long legs
And lick her up and down

Until she says stop
Oh stop!
Those are my fantasies
When i'm looking at myself in the mirror

I want to talk to you about myself
I want to talk to you about myself
I want to talk to you about myself
I want to talk to you about myself
'Cause i love myself

I know by heart my body sensitive parts
And the only man who can take me on all night
Is the one hidden in my mind
One day i'll join my reflection
Ignoring the sharp pain of broking glass

I want to talk to you about my girl
I want to talk to you about my girl
I want to talk to you about my girl
I want to talk to you about my girl
'Cause i love my girl

Oh yeah
