Dance with me dance with me  
Lay yourself bare  
Move with me groove with me  
Till I don't care  
Follow me follow me, breathe me in, swallow me  
Fall with me into me  
Fall with me into temptation ; a celebration

- Chorus -

I'm not just anybody  
Cos anybody couldn't love you like this  
I know that everybody that feels it like me  
Would love you like this  
I'm not just anybody  
But I feel like I'm ready to love

Be cool with me fool with me  
Come with me there  
Slip with me slide with me  
Lost and unaware  
Rock with me roll with me  
Fold round me comfortably  
Picture me captured  
Deliver me into Temptation ; a celebration

CHORUS X 3

I'm not just anybody.
