Said you were going away
Remember when you would stay

But now we've started fade
What should we find to blame

Looking deep into your eyes, I realize...
But you don't understand these lies, it's no surprise,...

Oh oh, this love is not forever
Holding us together
Oh oh, stop trying' to make it better
I met you on the dancefloor

Oh oh, pretending we were never
Believing in this love affair
But we kiss to try to make it better
And get naked on the dancefloor

We try, and try to make it
But time and time, we fake it

Get naked on the dancefloor x 2

And now we're sleeping apart
Forgetting here to the start

Don't feel no broken heart
Wond'ring if you left a scar

Looking deep into your eyes, I realize...
But you don't understand these lies, it's no surprise,...

Oh oh, this love is not forever
Holding us together
Oh oh, stop trying' to make it better
I met you on the dancefloor

Oh oh, pretending we were never
Believing in this love affair
But we kiss to try to make it better
And get naked on the dancefloor

We gon' lose control
Hit the floor
Don't care anymore
This for sure

We gon' make this right
For one night
I'm gon' make you mine
One more time

Oh oh, this love is not forever
Holding us together
Oh oh, stop trying' to make it better
I met you on the dancefloor

Oh oh, pretending we were never
Believing in this love affair
But we kiss to try to make it better
And get naked on the dancefloor
