### "High Hopes"

Visit "[High Hopes](#)" on MotoLyrics.com

Did I hear you say you need someone to talk to  
And you want to have someone to hold you close  
You've got high hopes for someone good and strong  
Someone good to hold you close

I wish that I could be the one you want, girl  
I wish that I could be the one that's strong  
But you're high hopes are better saved  
For someone else who might stay

I'll see you standing there in the pouring rain  
Hoping that the taxi comes real soon  
Cause you're beautiful enough to make mistakes  
You're beautiful enough to make me stay

Did I hear you say you want someone to talk to  
And you want to feel some loving in your heart  
You've got high hopes for someone good and strong  
Someone good who will stay
