Can we pretend that airplanes in the night sky are like  
shootin stars

I could really use a wish right now (wish right now wish  
right now)

Can we pretend that airplanes in the night sky are like  
shootin stars

I could really use a wish right now (wish right now wish  
right now)

Beautiful Queen,

I see you every night in my dreams

Under a purple sky holding a forbidden nectarine

I wake up everyday and try to tell you how I feel

I wrote you a letter but the envelope is still sealed

And every day passin is another wave crashing,

Another bold move that I forgot to make happen,

So the undertow is taken you away with the tide,

While I'm on the sand and my hands wavin goodbye,

Yea, and it seems so innefficient to me,

I wasn't wishin to be another fish in the sea,

Till I heard a storm coming and I saw sky open,

And then this saint from above fell into my ocean,

Now I can see the heavens I don't have to know

astronomy,

And so I hope you follow me into my oceanography,

And fly to the horizon while I got you fantasizin,

I can take you to the moon so we can watch the planet

risin,

Cause today somebody told me I should look to the

sky,

They said that mercury and mars are visible to the eye,

And the last time that happened was in 1925,

You know that crazy things happen when ever the

planets align,

And maybe it's a sign but I would like a shooting star,

Cause like mars even though your visible your still far,

And I just really wanna bring the light back,

I was on the right track up until the light cracked,

If I had it for a second I would seal it in a bag

It would be my lava lamp when I'd be chillin in my pad,

And nothing could be realer then the feelings that I

have  
When I'm starin at the ceiling and I'm feeling kinda  
sad,  
And that feeling's kinda bad all of this time achin  
Waitin patiently for my phone to be vibratin,  
So I'm wishin that you'll call  
Yo I slumber and I dream and I'm hopin I'm awoken by  
you're number on my screen.

Can we pretend that airplanes in the night sky are like

Close your eyes picture us together at the top,  
Hold my hand baby and we'll jump off at the rocks,  
Rope swing into the gorge we can hold the same knot,  
I don't ever want this moment to stop,  
But I know it doesn't last forever so I wish I had a  
camcorder,  
So I can film you blowin me kisses under the water,  
We hold each other close like we're on the same team,  
It's you and I floating down the stream, we just drift,  
Further down the river like incubus,  
Wondering if my transmission was aqueous  
If we had to seperate and take another lover  
Could we ever meet again and share what we had both  
discovered,  
This river has a tendency to rearrange it's particles,  
And suddenly were at the lovers tunnel at the carnival,  
In the swan ride and I'm starin at your lips  
Cause I really wanna give you a kiss, like this,  
But then you dissappear and the swan stops,  
And I'm in my dorm room starin at my alarm clock  
I really hate the feelin when I have a happy dream  
Then I wake up in the morning and curse my reality,  
So the next time I have it Ima seal it in a bag  
It would be my lava lamp when I'dl be chillin in my pad,  
And nothing could be realer then the feelings that I  
have  
When I'm starin at the ceiling and I'm feeling kinda  
sad,  
And this feeling's kinda bad all of this time achein  
waitin patiently for my phone to be vibratin,  
And I found out whenever I'm layin down on my  
mattress

In my rapid eye movie your always the main actress,  
So I look for shootin stars when it pains  
Hopin that the airplanes are fair game  
Cause if I had one wish that I could speak  
I would ask to be the last thing you think about before  
you fall asleep.

Can we pretend that airplanes in the night sky are like  
shootin stars  
I could really use a wish right now (wish right now wish

Can we pretend that airplanes in the night sky are like

I could really use a wish right now (wish right now)  
Ooo can we pretend that airplanes are shootin stars  
Cause I could really use a wish right now  
I could really use, a wish right now.
