Give me strength, give me hope,
Don't think of me like another dope.
Days so grey I wanna cry,
Burn this down around your ears,
End your world in blood and tears.

Watch this space,
It's full of fear,
Keep it down,
With sex and beer.

I wanna count before I go,
Do things that all will know,

want some fame and want some bread,
Give me a life before I'm dead.

Burn this down around your ears,
End your world in blood and tears
Burn this down around your ears,
End your world in blood and tears
Give me strength, give me hope,
Don't think of me like another dope.
