Grab your six gun and follow me  
A red sun rises, day of destiny  
We may not see the sun set tonight but  
We won't go down without a firefight  
You'd be surprised just how far I'm willing to let this  
go  
You'd be surprised just how far I'm willing to let this  
go

This place it kills, rips through everyone  
I've seen the best of us fall  
I'm leaving here with or without you

I feel disaster looming  
Shadows are chasing me  
I need to get away from this  
Before it gets the best of me  
Five, four, three, two, one, ready or not baby here I  
come.  
This time I brought a loaded gun  
If it works for me, well it works for you too

This place it kills, rips through everyone  
I've seen the best of us fall  
I'm leaving here with or without you

I told you one time  
You had your chance to follow me  
This is the end of the line  
On your knees  
I'll pull the trigger bitch

This city is a murder scene
