"Good Times, Good Music And Good Good Friends"

Visit "[Good Times, Good Music And Good Good Friends](#)" on MotoLyrics.com

Gonna sing a song, gonna be a love song
Sing about the good good feeling you brought along
You put my mind at rest
Made me feel like I'd been blessed
With good time, good music and good good friends

When I was feeling down, when I was feeling low down
You turned me on to good good music
You turned me right around
You took be to your breast
You held me up with your sweet caress
And good times, good music and good good friends

I remember when you found me
I was hungry and alone
First you fed me then you loved me
You made me feel at home

Wanna sing a song, got to be a love song
Sing about the good good feeling you brought along
Wanna scream and shout
How did I ever do without
Good times, good music and good good friends

Music

Wanna scream and shout
How did I ever do without
Good times, good music and good good friends
