Sunny, stay by me
Sunny, stay by me

Rain used to fill my eyes 'til I met you, Sunny
You cleared my cloudy skies, pretty little Sunny
You made the rain disappear
It's just like magic when I hold you near

Oh Sunny, stay by me

I never wore a smile 'til the day I found you
Now all I do is smile whenever I'm around you
It's such a wonderful world
Say that you'll always be my sunshine girl

Sunny, stay by me

My life was sad and lonely
I never saw the sun
But the very moment that I held you tight
I walked out of the darkness and into the light

I love no one but you Sunny, please believe me
Don't ever say we're through, Sunny never leave me
Promise you won't go away
Love me for ever as you do today

Oh Sunny, stay by me
Sunny, stay by me
Sunny, stay by me
Sunny, stay by me
