Girls they call me Hulk the Handsome  
If they've time to pronounce my name before they  
come  
I am Stupendous Man, I am the God of fuck.  
Do you plan to loose a pound or two?  
Do you want to get rid of adipose tissue?  
Please spend the night in my fuckpad  
It's hotter here than downtown Baghdad  
You'll loose more weight in twenty minutes  
Than with the local fitness season ticket  
I've been working on every muscle  
It's been a lifelong and faithful battle  
My body has been carved into a fucking machine  
I've sculpted every inch of it after Henry Rollins  
First Gymnasium, now Solarium, yum-yum!  
I need to book my cancer before sanatorium.
