You're standing in my way  
You're like a lie looking for closure  
So keep your fake ties to yourself

There's wasn't much to gain since the last time that I  
saw you  
Here's where you end and I begin  
Wave your white flag surrender cause it's over for you  
now

You came to me standing knee deep in denial  
The floods kept coming in  
Here's where you end and I begin

You know how much you suck  
Better listen to this tough luck  
You gotta roll the dice again  
The room was closing in  
I felt that I was slowly chocking

Here's where you end and I begin  
But you have no say in whatever's coming next for you

You came to me standing knee deep in denial  
The floods kept coming in  
Here's where you end and I begin

Just take a breathe before you sink  
That's what you get for giving in  
Remember you will never win  
And now you've got me under your skin
