IÃ,Â¹m starinÃ,Â¹ into the night
Seen the times of my life with you
With you itÃ,Â¹ll always be right
My burninÃ,Â¹ light
Your star will shine tonight
Sky, you will always be mine
I feel the angels by your side
I thought there would always be time
This love of mine
For our love in a future time
I feel you with me at night
I sense your every move
I know you hear me
And everything I do
I dream of the things that you say
And the times that we play
Your love is the warmth of my day
ItÃ,Â¹ll never fade away
I feel you with me at night
I sense your every move
I know you hear me
And everything I do
I swear my never-ending love to you
Lord itÃ,Â¹s true a never-ending love to you
I feel you with me at night
I sense your every move
I know you hear me
And everything I do
I do it for you
Love, my never-ending love for you
