Chorus

No enslavement,
Break the anthem,
Destroy Slavery,
Bring freedom
For people!
How long
Will continue
This nightmare
Domestic cruelty,
Stop using violence!
I sacrifice my life
But most of the hostages
Are missing

R u wonder
Everyone
Takes advantage
To make the world
Worse

It's impossible
2 bear
How they bring new misery.

I ain't no go 2
Sneak out
Make cops scream
& beg 4 mercy
I'm fed up
Tossing about

We destroy
Our universe

It's the bizzies down
That pissed me off.
I've got pulled
Nearly 3 hours
Since I've been here

I cannot take prompt action
Against violence
Support me
To pay em off for treating
They know

That's no limelight,
It's hell's side

Wish me
Good luck
At the gunfight
There are ghosts
Of infants
On the bottom
Of basement
My aim is
To save these
Victims
No air
In their lungs
I called to police-office

But female body inspectors
Assist with kidnapers

They snatch people
N get away with it
Whenever penance will
Reach their soulless clays

Heartache doesn't destruct vice
I have got no maintenance
To save them
I've lost my patience

Nobody ever admits
They are monsters

Chorus

Only lyrics
Can show my feelings
Keep silence,
They pay for everything.

I'll torture the main leader
He's caused us a lot of trouble.
Daybreak appeared on the scene
Requital made me scream
I rolled & wallowed in kill

Let life "blood" him
My own self doesn't give a quarter
After years of hardships
The heart became hardened
I mustn't yield to force
My head never defied public opinion

Eyes, fill with tears
I'm torn with doubts

Strength always
Induce me to be cut up
What's happened
Never referred to none
Except adversaries from terror

Slave trade won't exist
Destroy this racism
Could you live in strained circumstance?
Nowadays
Where's justice?

Everybody thinks about profusion
But we need changes
Who can stop this discrimination?

Everyone ranges
To jump at conclusion
How we can manage
This consternation

All babies must be rescued
