"King Like A Bia"

Visit "[King Like A Bia](#)" on MotoLyrics.com

This money is dirty
I cannot look at your trophy
Do I envy you?
I don't care about your glory

Let me watch the way you become florid
Shame on his notoriety
You don't deserve any honor
All these games only for society

Everybody call him moron
He cares only about ratings
I wanna overcome your flow
He always disagrees with everything

And it pisses me off
His view of the world is terrible
He's happy of being in war
I see monster's character

He wanna break new law
Everyone's scared of his dare
All feelings are cold
His jealousy is bare

Take me with a grain of salt
Your favor is not returned
Sorry, my dear lord
I don't prefer to leave you alone

I saw only people's sorrow
When was coming to your home
Is it great or awful?
You don't bring any support
Because you're bored

Hook

King, I want to see your fear
Stop hiding in lair like a bia
I want to see your force real

You are liar with pretending tear

Tell the truth about recent deal
King behaves like a frightened queen
Now see what people feel

You don't worry
That your empire falls
No, I'm not wrong
Now hear fake applause

When evil takes over
You comfort with loss
Old dynasty must be dethroned
I see powerful source

New generation on the road
Who tired of your course
Move up or take a storm
Your policy don't worth a curse

Crowd can't stand a clown
Run away like a wild horse
We'll get golden crown
It's our necessary turn

Now put your reputation down
He want everyone call him boss
Your mask looks like dressing gown
Got same mind with gloss

That's really funny
Tyrant without love
Look like bear gummy
Trying to be on top

Keep waiting for sunny day
Not in this situation
Can't find a good way
Living in probation

Can't kill main enemy
It leads to mistakes
You become angry

Hook

We knock you down, dear
How much misery
Behind my fleer
But you fancy

You were like a gear
Nothing left to say
Now you are nobody here
Any sovereign can be replaced

Everything is clear
Retire and get along with it
Take care, I hear your jeer
You can't leave legacy

It took so many years
To cut up this sufferings

No love between us
It drives me crazy
You're such a bastard
And always put the blame on me

But that's no fair
It's time to show reality
My utterance is daring
Now prove you disagree

What, you can't dare?
I caught you like a fish
Now who is predator?
There's a new dish

It's a snare
You must surrender
And had to be aware
Soon lose your splendor
Hey, don't blare

Hook
