Friday nite walking down the street
Poisoned body to drunk to see
You gonna live your life tonight
Bring a knife to a gun fight
Fuckin crazy, wont last the nite
You better live your life or die

But you're running away,
You keep running away,
You keep running.
Yeah you're runnin' away,
You keep running away
Running, Can't run away from me.

Pick a night just sitting at the bar
Live to fast you wont get to far
You're gonna talk some shit tonight
When you see me
You'll always turn and run
You better live your life or die

But you're running away
You keep running away
You keep running
Yeah you're running away
You keep running away
Runnin'

Can't run away from me
You can't run away from me
