"Good Things"

You took all of my wrong re-actions
Because to them I would,... stay in this land of
distractions

So now you will,...

Find me on that road and I know where it goes
It's paved with your memory
To be with you more than anything
I had nothing left to give
Thirsty and dried from consequences
And I need all your "Blue Springs"
Where your giving only "Good Things"

You could read all of my wrong intentions
Not a place to be at
Without form or direction
You gave words to abide by and believe
Instead of being thrown all around and deceived

So now you will,...

Find me on that road and I know where it goes
It's paved with your memory
To be with you more than anything
I had nothing left to give
Thirsty and dried from consequences
And I need all your "Blue Springs"
Where your giving only "Good Things"

Only "Good things" your giving to me
Only "Good Things"
Only "Good Things" I'm letting your words ring
So true to me
