If we ever needed the Lord before we sho' do need  
Him now  
If we ever needed the Lord before we sho' do need  
Him now

So many things are happening in our world today  
God is only trying to remind us, we need to humble  
ourselves and pray  
Mothers against daughter, father against their sons  
Seems like every step forward, takes us back to where  
we came from

Still a lot of people trying to decide, If there's a God  
somewhere  
Can't understand why they don't feel Him in the air  
Stopped by to tell you, you ought to let Him in your life  
Learn how to trust Him, He'll make everything alright

I got a feeling, that everything's gonna be alright  
I got a feeling, that everything's gonna be okay

We need Him  
We need Him  
We really need Him  
Yeah
