Your boyfriend's gone  
I see my chance  
You're out alone  
You wanna dance  
He always seems to be away  
You always seem to like it

He doesn't care to know you  
The way I'd like to know you  
Doesn't care to show you  
The love I'd like to show you

I could love you more  
I could turn you on  
We could have some fun  
While your boyfriend's gone  
I could love you more  
When he loves you less  
Steal your heart from him  
Keep it beating fast  
How could a girl like you  
Go out with such a tool?  
I could love you more  
Let you know for sure  
Leave the man of yours  
I could love you more

It's clear to see  
You'd rather be  
With someone else  
That should be me  
He looks at you but he's not there  
Can you not see it's not fair?

He doesn't care to know you  
He way I'd like to know you  
Doesn't care to show you  
The love I'd like to show you

I could love you more  
I could turn you on  
We could have some fun

While your boyfriend's gone  
I could love you more  
When he loves you less  
Steal your heart from him  
Keep it beating fast  
How could a girl like you  
Go out with such a tool?  
I could love you more  
Let you know for sure  
Leave the man of yours  
I could love you more

I could be crazy  
To think I could get a girl like you  
I would be crazy  
To think he's the best that you could do

I could love you more  
I could turn you on  
We could have some fun  
While your boyfriend's gone  
I could love you more  
When he loves you less  
Steal your heart from him  
Keep it beating fast  
How could a girl like you  
Go out with such a tool?  
I could love you more  
Let you know for sure  
Leave the man of yours  
I could love you more
