Demons on her mind, demons of any kind
Demons in her ears, demons that never disappear
Demons in her head, demons that she never met

Well i thought i had a chance,
I had a sweet heart, a hard romance
Demons here and there, demons everywhere
She didn't notice i was there
But she always disappeared
Well i thought i had a chance,
I had a sweet heart, a hard romance
Demons are a girl's best friend(x4)

Well i thought i had a chance,
But she always disappeared
I had a sweet heart, a hard romance
Well i thought i had a chance,
She didn't notice i was there
I had a sweet heart, a hard romance
Demons are a girl's best friend(x4)
Demons in her head, demons alive or dead

Demons are here and there, demons everywhere
Demons on the floor, demons hid behind that door
Well i thought i had a chance,
Demons behind that curtain, demons, yah, i'm certain

I had a sweet heart, a hard romance
Well i thought i had a chance,
But she always disappeared
I had a sweet heart, a hard romance
She didn't notice i was there
Demons are a girl's best friend (x4)

Demons are a girls best friend now!
