Magpie comes a calling  
Drops a marble from the sky  
Tin roof sounds alarm  
And wake up child  
Let this be a warning says the magpie to the morning  
Don't let this fading summer pass you by  
Don't let this fading summer pass you by

Black hands held so high  
The vulture wheels and dives  
Something on the thermals  
Yanked his chain  
Smelled your boring apex  
Rotting on the train tracks  
He laughed under his breath  
Because you thought that you could outrun sorrow  
Take your own advice  
Thunder and lightening gets you rain  
Run an airtight mission, a Clouseau expedition  
To find a diamond at the bottom of the drain

A diamond at the bottom of the drain

Hear the mocking bird sing  
In the middle of the night  
All of his songs are stolen so he hides  
Stole them out from whipporwills  
Screaming common lies  
He sings them for you special  
He knows you're afraid of the dark  
Come on sorrow  
Take your own advice  
Hide under the bed  
Turn out the light  
Stars this night in the sky are ringing out  
You can almost hear them saying  
"Close your eyes now kid"  
"Close your eyes now kid"

Morning is too far lit  
They are waiting  
Waiting

They are waiting
