"That Teenage Feeling"

Visit "[That Teenage Feeling](#)" on MotoLyrics.com

Now that we've met
We can only laugh at these regrets
Common as a winter cold
They're telephone poles
They follow each other
One after another, after another

Now my heart is green as weeds
Grown to outlive their season
And nothing comforts me the same
As my brave friend who says
"I don't care if forever never comes
'Cause I'm holding on
For that teenage feeling
I'm holding on
For that teenage feeling."

All the love you had
All we ever knew
Did they fill me with so many secrets
To keep me from loving you?
Cause it's hard
Hard hard
Hard
