well well well gold gold sweat

i'm a nervous break

i'm at the dental clinic for a check

to his chair i'm strapped a drill
in the driller killer's chair
pain is what you get

just thinking of it
makes me sweat
covered up with blood

i'm runnin' for the door
now i realize this dentist

killed before
i got out of there alive ain't

never going back

psycho maniac

to that powerdrilling
