"Last Night I Saved An Angel"

Visit "[Last Night I Saved An Angel](#)" on MotoLyrics.com

Another lonely night my life was passing by without it
your time is up the moment is near I meant it.

It feels so many fun when I'm sleeping through another
day I need it It's not all over and I promise to stay
together I want.

Last night I saved an angel I fixed her broken wings
she made do things I've never done before(x2)

It feels so many fun when I'm sleeping through another
day I need it it's not all over and I promise to stay
together I want.

Last night I saved an angel I fixed her broken wings
she made me do things I've never done before(x5)

Last night I saved an angel.
