"Love At First Bite"

Neither wolf nor men art thou
Conquer of time
Thy love has given me a sign
Before me thou kneelst
Invader of my heart
Maketh thee the devil's
The devil's concubine

Two different worlds, parted forever
Take me away from all this death
I want to see what you see
Love at first bite, we'll be together
Forever and ever and ever, eternally

And as the time goes by
Oh, I realize
Thy will is where I wouldst be
At night asleep I sigh with dreams so sinister
Cometh my friends of darkness
Hither to me
